BUILDING THE FOUNDATION FOR MAXIMISING 2027 VISIBILITY

A PROPOSAL FOR PFL AFRICA

26.10.2026

WHERE WE STAND

THIS IS ALREADY WORKING

PFL sources its own content creators directly, and invites them to its events to create content. Simple as that.
This has been the case for the last couple events, Morocco, Nigeria, and the others before them.

THIS IS WHAT YOU ARE MISSING

- No set deliverables per creator
- No detailed oversight of what creators actually post
- No key messaging or calls to action
- A gap in which PFL can push specific messaging to viewers
- Everything sits with one head of marketing, not scalable

WHY NOW

THE FOUNDATION HAS TO BE SET BEFORE 2027

PFL and MVP merge into one company through 2027. A new brand, a new investor story. Every number PFL Africa produces now builds that case.

190
COUNTRIES IN PFL'S BROADCAST FOOTPRINT

1.2B
HOUSEHOLDS REACHED GLOBALLY

35M+
HOUSEHOLDS REACHED ACROSS AFRICA ALONE

THE REVENUE MODEL

WHERE THE NEW MONEY COMES FROM

MORE CREATORS → MORE VISIBILITY → BRAND KPIS MET → SPONSOR AND INVESTOR MONEY

THE ATOURE ANSWER

TWO DELIVERABLES, NOT ONE

01

TAILORED CREATORS & VIP INVITES PER EVENT

- Creators matched to each event's budget and market
- Set deliverables agreed with every creator
- Briefs carrying PFL's key messaging and calls to action
- One point of contact, so marketing isn't carrying it alone

02

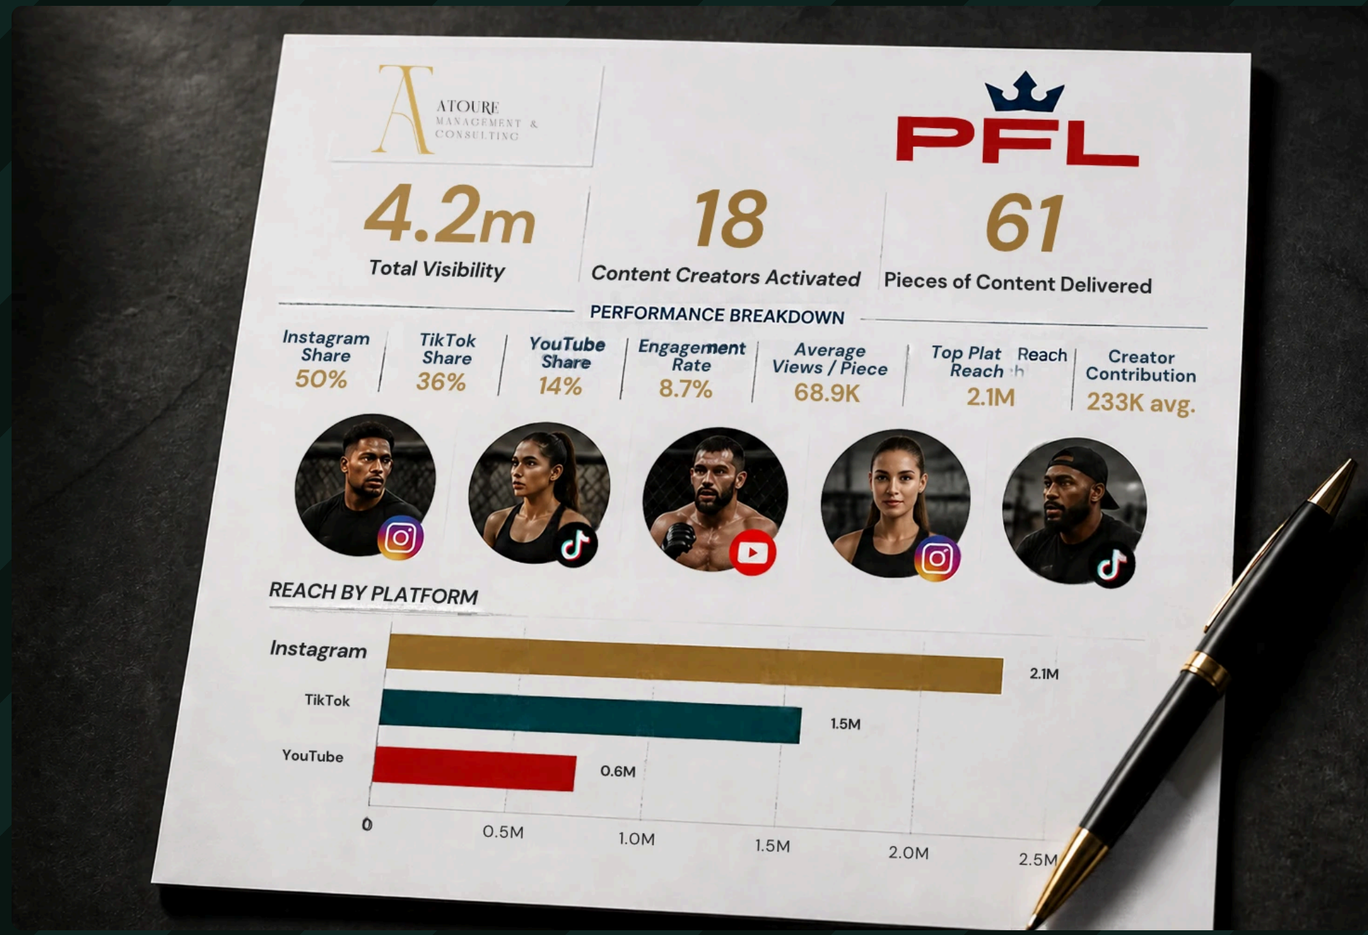

DETAILED POST EVENT REPORT

- 48 hours after: who posted, and where
- Two weeks after: views, impressions, platforms, audiences, and where across Africa
- Every post, every platform, in one document
- Numbers updated regularly for up to date content performance
- Ready for sponsors, investors and the board

THE CREATORS GENERATE THE CONTENT. THE REPORT IS WHAT MAKES THE SPEND PROVABLE.

WHAT PFL AFRICA ACTUALLY RECEIVES

- Every post, by creator, by platform, with the link
- Views, likes, comments, shares and saves, wherever the platform exposes them
- One combined reach and engagement total for the whole activation

THE PROPOSAL

A TRIAL. RWANDA. DECEMBER 12.

AToure manages the creator activation inside the existing budget, and delivers the first full after action report PFL Africa has had for an event in Africa.

THE ACTIVATION

Rwandan creators, matched to the budget as it stands. Not a bigger ask.

THE REPORT

THE ASK

LET US WORK TOGETHER ON RWANDA. WE START THIS WEEK.

December 12 is six weeks out. Confirm the trial and AToure begins locking creators and tailoring the report framework within 48 hours, there is no slack left to wait on.
